

Installation Instructions

1. Position the jambstopper so that the mount is on the top door stop and the bumper is on the hinge side door stop. Turn the face of the mount so that it is pointing towards the door. As shown in the ex. 1 image.
2. Use the notch on the side of the jambstopper to measure 7 inches from the hinge side door stop and make a mark on the top door stop.
3. Peel off tape cover.
4. Align the end of the jambstopper bumper to the mark and firmly press the mount to the top door stop. As shown in ex. 2 image.
